Instructional Support

Mr. López, room 35

What on the word wall?

entire	fraction	portion	apply
confidence	drape	crust	segregation
concept	row	injustice	threat
Border	derive	conclusion	shelf
coin	you'll	you're	stall
tolerate	Dime	nickel	respect
quarter	penny	dollar	value
Amount	tent	row	completely
Sentence	skill	average	interrupt
cooperate	digit	number	translate
Retell	point	conflict	wait
Law	order	appeal	skip-count
concentrate	group	idiom	interpret

Math Word Problems

We are doing a problem everyday to practice converting it into a number sentence. Here's how:

Dr. King wrote his longest letter of his life on April 16, 1963. On April 16, 2009, how many years ago was that?

$$2009 - 1963 = 46$$

Improving Our Reading

1. We learn the vocabulary words.
2. Then we try reading the book.
3. We try to make the reading sound the way people really talk.
4. We try to find a lesson that any reader could learn.
5. We read it to the teacher when we think the books is too easy.

AES School House Rock Song

By José M. López

Up, up, up. At the top of the hill. The p-r-o-u-d AES.

Fun, fun, love, work and respect.

We rise. Above the rest. Never ever r-e-s-t. Until we get. To be, to be, the best.

AES, AES, AES-S-S-S-S, AES, to be, to be, the best

Musical Interlude

(Repeat excluding bold face. Repeat 3 time underline)

We need to learn the math facts!

Knowing you math facts will make it so much more fun. Everybody likes having more fun! Take some time at home to learn the addition facts. By doing so, you also learn at the same time the subtraction facts. Since these three numbers go together, we say that they make a fact family. So by going in the opposite direction in addition you have subtraction!

Parent+Teacher=Partners

It is important that parents and teachers communicate easily. Check this website to see what new things you need to be aware of. You could leave me a message here too! Please provide me with your e-mail address and/or cell phone number, if you have one. You can also contact me at:

Jose.Lopez@am.dodea.edu or at the school #: 787-707-2364/2366/2368 Fax. /2315

Dr. King's longest Letter!

Forty-six years ago, King wrote it. Study the board to answer these questions.

1. Why did King go to Birmingham?
2. Why did he write a long letter?
3. What does the red sentence mean to you?
4. Where was the letter written?
5. What does the letter have to do with the month of April?
6. Was King selfish? Why?

Home-School

Monday

Read a book together, or learn an addition or multiplication table.

Tuesday

Learn the vocabulary for a book, or solve a math problem, or continue practicing the math facts.

Wednesday

Talk about a lesson that one could learn from the story you read, or make up your own word problem. Continue math facts (CMF).

Thursday

Think about an idea for your own story (the character, the setting, the problem, the ending). CMF.

Friday

Try to write your own story! CMF, or go to next table.

Journal Writing

1. Encourage your child to write in a notebook everyday for 10 minutes.
2. Put the date on the top of the page.
3. Write about whatever is on your mind. Make it stress-free!
4. Soon you will discover that your child loves to write!

Thank You for Your Support!

Your support is **indispensable!**

Thank you for the time and effort you put in to help your child succeed! I'm sure that **your child thanks you too!**
