

Dear Holbrook Parents,

Our musical Holbrook Children will be exploring many facets of music in class this fall. Your student musicians will not only have opportunity to exercise their creativity through singing, but also through a number of other musical media. We will have fun looking into:

- What elements make up music?
- How to sing and play together as a chorus and as an ensemble with a variety of simple instruments.
- How music plays an intrinsic part of our lives through history, culture and even science.
- How we can improvise in music.
- Fourth and Fifth Graders will even begin their practice with recorders.

Within a short time we will start up our “after school performance club” (most likely Thursday @ 2:50 with a 3:55 pickup). There, our older students will be able to try some more advanced chorus music and prepare for a future performance. I hope your musical student will join us! It will mean a commitment to attendance and focus on refining our musical skills for those who wish to excel with one voice in musical expression. More information will be made available soon!

Hoping to prepare your students for their “musical” tomorrow,

Holbrook Eagles Classroom Music Teacher
