02	Pump bottles hand sanitizer, 8 oz	
01	Full size book bag	WITHOUT WHEELS!

Supplies are the same for multi-age and single grade classrooms. Whether your child is a kindergarten student in a multi-age classroom or single grade Kindergarten class, he/she will still need the same supplies with the addition of fat pencils and fat crayons. First and second graders need the spiral notebooks for math journals.

We have experienced problems with RoseArt brand pencils, crayons, paints, and glue. The lead in the pencils is off center and the pencils do not sharpen evenly. The pencil is wasted in the sharpener before the students can make use of it. The crayons and paints do not produce bright, vivid colors on paper. The glue sticks do not hold.

It is important that book bags do not have wheels because classrooms do not have storage room. Students' book bags are stored in cubbies with hooks and book bags with wheels do not fit inside the storage area.

Teachers may have specific requests that they may mention during the first week of school. For your shopping convenience, **DO NOT PURCHASE ANY ADDITIONAL SUPPLIES OF ANY KIND** until you have spoken with your child's teacher.
