30 January 2009

Dear Parents,

I am pleased to inform you that Maxwell AFB Elementary School now has a One Call Now system. The One Call Now system is an automated messaging service that allows schools to contact parents within minutes in cases of school emergencies (such as lockdown situations), closing or delayed openings of school due to inclement weather, and even reminders for community /school events.

Attached is a flyer explaining the benefits of the One Call Now system. The most important thing we need from you is an updated list of phone numbers! The One Call system can call up to four numbers per family. If you have ANY changes in phone numbers, please provide them by 6 February 2009.

As always, communication is key to the successful function of any organization. The One Call Now system will definitely improve our communication with you. Thank you for your cooperation in getting the correct information to us as soon as possible.

Whatever it Takes!

Melissa Hayes
Principal
