

School Improvement

The North Central Association Commission on Accreditation and School Improvement now known as AdvancEd is an education community through which accreditation, research, and continuous improvement can be delivered for our DoDEA/DDESS schools. Accreditation is an ongoing process of meeting standards and continuous improvement. This process started at Robins School last fall. Since August our staff has spent time studying current trends in education, reviewing the standards to ensure they are being met, collecting and analyzing data which will be part of our School Profile, determining areas of improvement, and researching best practices which will be included in our School Plan. A variety of committees meet on Monday afternoons along with some of our parents as we work through this process.

One of the tasks that the staff has been working on is revising our Vision Statement. We discussed our beliefs about teaching and learning and came up with 5 statements that we feel gives a clear, meaningful picture of who we are and what we believe. We purposely kept our vision statements short and to the point so that the chosen one would be easy to remember. The School Improvement Leadership Team asked the staff and students to vote on their favorite Vision Statement, and now we want to share it with you. The Vision Statement for Robins School is:

Work Hard, Do your Best, Prepare for the Future

The Art teacher is preparing a visual representation on which these words will be written. The school plans on displaying our Vision throughout the building and on much of the correspondence you will be receiving in the future. You will probably hear your children recite this phrase as well.

Robins School is proud of its heritage and tradition of excellence. Our dedicated and caring staff has been serving children residing on Robins Air Force Base for over 40 years. We look forward to working with all our stakeholders and sharing our achievements as we move through the School Improvement process.
